THE MARRIAGE EXPECTATION INVENTORY
by Patrick J. McDonald
revised by John P. Bingham

INTRODUCTION

The Marriage Expectation Inventory is designed to help you discuss and understand some important aspects of your relationship. It was created from the experiences of hundreds of couples like yourselves who wished to understand more about each other. If used thoughtfully and seriously, it can help you grow in love.

DIRECTIONS

The procedure for taking this inventory is simple.

1. Set aside an hour and a half and separate yourselves so you do not see what your partner is writing.
2. Fill in the form as thoughtfully as possible. The more thought you give your answers, the more you will get from doing the exercise. If you do not finish in the time period (not likely), take a break and continue later.
3. Do not discuss your answers until our next appointment. At that time we will compare and discuss answers, exploring the similarities and differences.
